

MCUNGUINDHLOVU.

78/132.

SPECIES

ATYBA.

Phylum: Chordata
Class: Mammalia
Order: Primates
Family: Hominidae
Homo sapiens sapiens

1

Fragment of crown of upper premolar

Order: Artiodactyla
Family: Bovidae
Bos taurus

65

65 right hyoids; 37 right patella; 33 M.III on the basis of teeth age classes.

Ovis/Capra

2

right M₃, newly erupted; left dp₃

Bov. I

2

1 x right patella

Bov. II

7

7 x right proximal radii

Bov. III (not cow)

1

half of 2nd phalanx

Bov. IV

7

7 x right proximal radii

Order: Hyracoidea
Family: Procaviidae
Procavia sp

1

distal humerus

Order: Lagomorpha
Family: Leporidae
of Lepus crassicaudatus

1

distal tibia and portion of shaft

Lepus sp

1

right and left pelvis

Order: Rodentia
Family: Muridae
rat sized rodent

1

1 x pelvis, femur, proximal tibia with unfused articulation

Mouse sized rodent

3

2 x left, 1 x right mandible

Class: Aves
Guineafowl sized bird

1

Carpus metacarpus, vertebra

bird larger than guineafowl

1

Carpus metacarpus

rare sized bird

1

Carpus metacarpus, phalanx

small seed eater

3

Carpus metacarpus

Class: Reptilia
Order: Sauria
Family: Varanidae
Varanus sp

1

mandible fragments, 2 mandibular articulations, portion of left and right mandible, portion of scapula, humerus, radius and ulna

Varanus sp (small specimen)

1

humerus, 1 limb and 2 other bones

Order: Squamata
Family: Serpentes
White snake

1

11 vertebrae

Class: Pisces
Inlet fish

1

1 bone

Phylum: Mollusca
Class: Cephalopoda
Inlet Cephalopod

1

11 fragments of cuttlebone

Class: Gastropoda
Family: Achatinidae
Achatina sp

1

1 shell fragments

small terrestrial snail

1

major part & portion of shell
